Blade type

Blade type eliminators

Counter flow products feature **horizontally** installed blade type eliminators.

Cross flow products feature **vertically** installed blade type eliminators in the coil section.

Benefits

- Maximum drift capture through efficient design
- Light weight
- Easy to handle, lift and remove for inspection and servicing of water distribution system and heat transfer surface (fill and coil)
- Nested modules to guarantee watertight seam
- Corrosion-free
- Perfect fit: model specific kits
- Certified by Eurovent

We use **horizontal** blade type eliminators in

Open cooling towers: VXT, [VT0/1](#), [VTL-E](#), [RCT](#), IMT, [FCT](#), IST

Closed circuit cooling towers: [VXI](#), VXMI, [VFL](#), [FCI](#), [RCF](#)

Evaporative condensers: [VXC](#), VXMC, [VCL](#), [ECI](#), [RCC](#)

We use **vertical** blade type eliminators in the coil section of

Closed circuit cooling towers: FXV, [FXV-D](#), [HXI](#)

Evaporative condensers: CXV, [CXVE](#), [CXV-D](#), [HXC](#)
